

Ava Lindgren

Machine Learning Engineer | ava.lindgren@example.com | +1-555-718-5333

Summary

Senior Machine Learning Engineer with 12 years of experience specializing in NLP, TensorFlow, Machine Learning, scikit-learn. Proven track record of delivering production systems and collaborating across cross-functional teams.

Skills

NLP, TensorFlow, Machine Learning, scikit-learn, Deep Learning, Python, PyTorch, LLM, Docker, AWS, Airflow

Experience

- **Machine Learning Engineer**, Quantic Systems (2022–2026)
Delivered projects using NLP and TensorFlow; collaborated in an Agile team to ship features to production.
- **Senior Machine Learning Engineer**, Everline (2019–2022)
Delivered projects using NLP and TensorFlow; collaborated in an Agile team to ship features to production.
- **Senior Machine Learning Engineer**, Ironleaf (2014–2019)
Delivered projects using NLP and TensorFlow; collaborated in an Agile team to ship features to production.

Education

M.Sc. in Computer Science, Lakemoor University (2014)

Projects

- Built a document retrieval and RAG pipeline using NLP and TensorFlow, improving answer relevance by 27%.
- Trained and deployed an NLP classification model with NLP, serving 2M+ requests/day.
