

Tariq Novak

Machine Learning Engineer | tariq.novak@example.com | +1-555-384-8428

Summary

Senior Machine Learning Engineer with 12 years of experience specializing in Python, PyTorch, scikit-learn, Deep Learning. Proven track record of delivering production systems and collaborating across cross-functional teams.

Skills

Python, PyTorch, scikit-learn, Deep Learning, Pandas, Machine Learning, TensorFlow, LLM

Experience

- **Machine Learning Engineer**, Palewave (2025–2026)
Delivered projects using Python and PyTorch; collaborated in an Agile team to ship features to production.
- **Senior Machine Learning Engineer**, Vertex Cloud (2023–2025)
Delivered projects using Python and PyTorch; collaborated in an Agile team to ship features to production.
- **Senior Machine Learning Engineer**, Sundial Robotics (2014–2023)
Delivered projects using Python and PyTorch; collaborated in an Agile team to ship features to production.

Education

M.Sc. in Computer Science, Fairhaven University (2012)

Projects

- Built a document retrieval and RAG pipeline using Python and PyTorch, improving answer relevance by 27%.
- Trained and deployed an NLP classification model with Python, serving 2M+ requests/day.

Certifications

- TensorFlow Developer Certificate
- AWS Certified Machine Learning – Specialty
